

# YJ600-UV DTE / YJA3-UV DTE

## Digital UV Embroidery Printer

World Premiere  
Brand-new Embroidery Technology

### Workflow

PET Film → UV Digital Printing → Cutting → Heat Transfer → Finished Product

### Features

- 1) Shortened process flow, reduced cost, small investment and quick payback;
- 2) Easy operation;
- 3) Environmental protection and low carbon;
- 4) High resolution and bright colors;
- 5) Good water fastness.

### Applications

Imitation embroidery, thick plates, foaming, cracks and other printing effects on textiles.

### Technical Parameters

| Model             | YJ600-UV DTE                         | YJA3-UV DTE                          |
